Standard Erosion Control Plan

According to Bay St Louis Erosion Control Ordinance a soil erosion control plan needs to be submitted and approved prior to the issuance of building permits. This standard Erosion Control Plan is provided to assist in meeting this requirement.

EXAMPLE

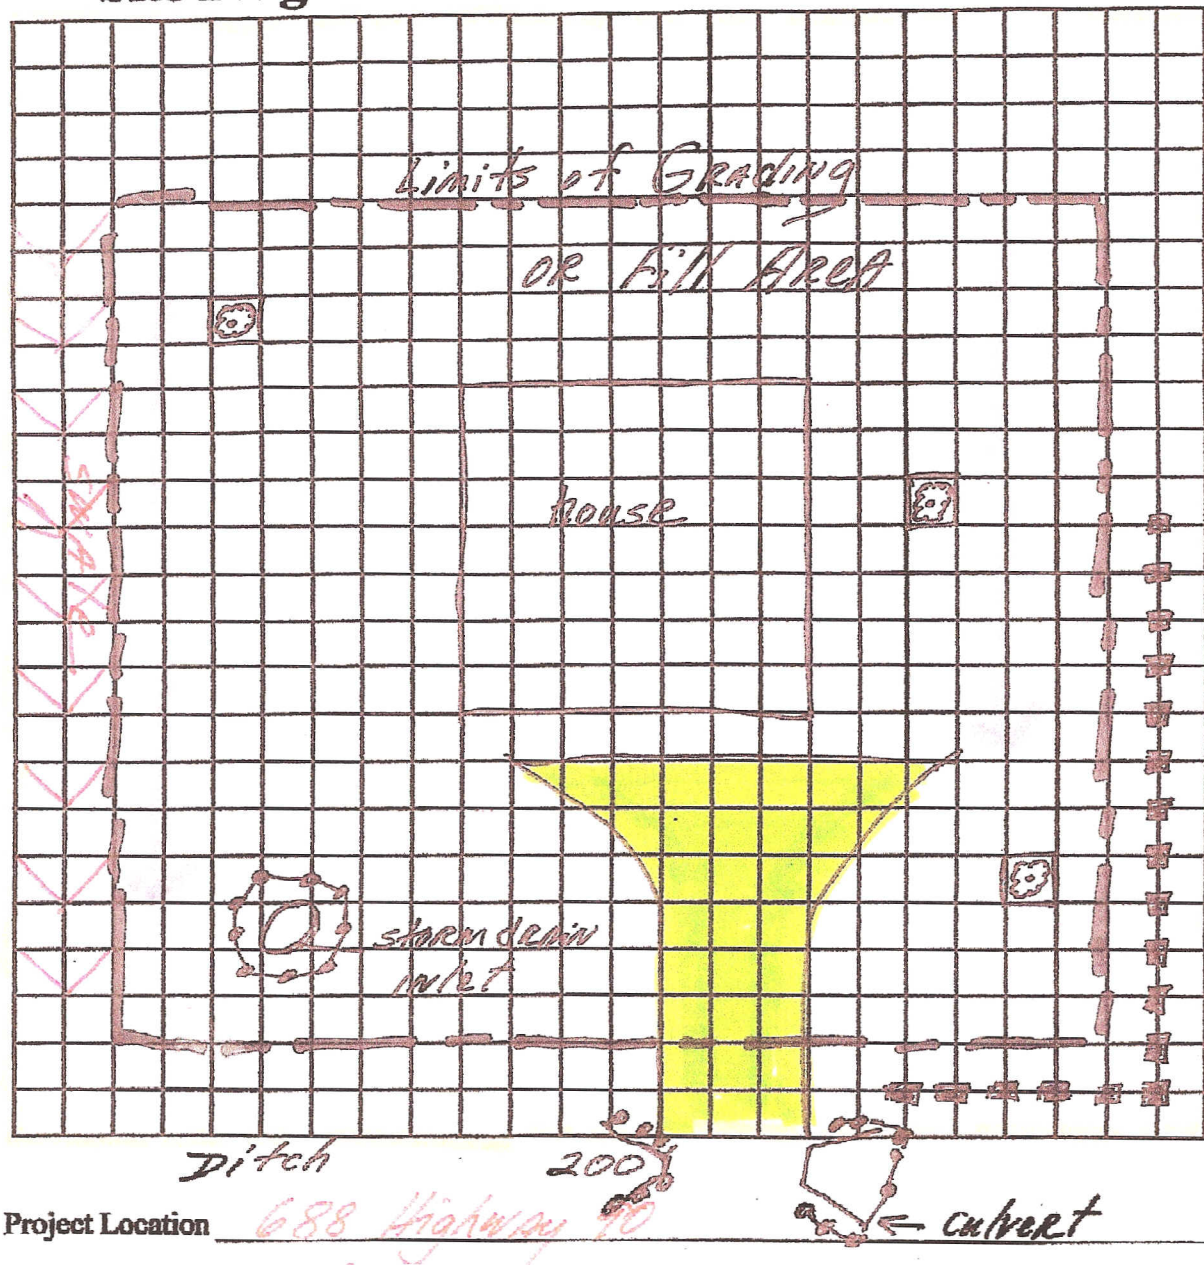
Fill
- existing grade elevation
- proposed elevations
- amount of fill
- height
- number of cubic yards

Instructions:

1. Complete this plan by filling in requested information, completing the site diagram and marking (✓) appropriate boxes on the inside of this form.
2. In completing the site diagram, give consideration to potential erosion that may occur before, during, and after grading. Water runoff patterns can change significantly as a site is reshaped.
3. Submit this plan at the time of building permit application.

Site Diagram

Scale: 1 inch = 50 feet



Erosion Control Plan Legend

- Property Line
- Existing Drainage
- TD Temporary Diversion
- Finished Drainage
- Limits of Grading
- Silt Fence
- Straw Bales
- Gravel
- (1) Vegetation Specification
- Tree Preservation
- Stockpiled Soil
