

**CITY OF BAY ST. LOUIS
PROJECT STATUS REPORT
JANUARY 2016**

1. OST Project - waiting on contractor to provide schedule. They anticipate beginning later this week.
2. Safe Routes - design kick off meeting this Thursday at 10:00 am. Jason started working on the ROW and Topo survey last week and should finish up today.
3. BSL Harbor - waiting on National Marine Fisheries to issue their biological opinion. They said two weeks ago it would be a couple of weeks. We will check back with them at the end of this week.
4. GRPC Items-
 - a. David Taylor is checking on the request for reclassification of Bouslog Street.
 - b. The city needs to certify the match is available for the OST Lighting project and request the project to be activated to get it started.
5. City Engineer - Jason emailed his recommendation last week on the lift station monitoring service. He's also working with Public Works on the new MS4 storm water regulations that DEQ is requiring.
