**Hancock County Emergency Management Agency
EMA Report – March 26, 2020**

14. Our recommendations to advise all of the County and City Employees are as follows:

- **If you received the posters we have been sending out, copy them and put them up in all the offices.**
- **Have each Department Head go over with each employee on how to protect yourself.**
- **Stay home if you are sick, and avoid close contact with anyone who is ill.**
- **Cover your coughs and sneezes. When possible, cough, sneeze or blow your nose into a tissue, and throw the tissue away.**
- **Avoid touching your eyes, nose and mouth.**
- **Wash your hands frequently and thoroughly, especially after coughing or sneezing, blowing your nose, and using the bathroom. Effective handwashing takes about 20 seconds, and includes cleaning under fingernails, between fingers, and washing the back of hands as well as the front. [More proper handwashing tips](#) »**
- **Clean and disinfect surfaces and objects that are touched often.**
- **Stay in good overall health by eating right and staying active. If you are living with diabetes, heart disease or other condition, keep in touch with your doctor and stay current with your treatment.**
- **During or before flu season, get a flu shot. Flu vaccination can prevent the flu or make it less severe, and decrease your chance of hospitalization and death. It also keeps you healthier and better able to fight off infections.**
- **If you are sick, especially with shortness of breath, cough, and fever or similar flu-like symptoms, call a doctor or healthcare provider.**
- **If an employee is sick tell them to stay.**
- **Avoid gatherings of 250 people or more, especially if there is evidence of transmission in your county or adjacent counties. If you do attend, remember to practice the hygiene and distancing steps above.**
- **To prevent illness in those most vulnerable, anyone 65 or older OR with a chronic medical condition should avoid any gathering of 250 people or more (corrected from 50 earlier).**
- **Avoid unnecessary (non-urgent) air, bus or train travel.**
- **Limit visitation to older relatives or friends (especially in nursing or care homes).**
- **Prepare for the possibility that schools or day care centers may temporarily close.**

**Hancock County Emergency Management Agency
EMA Report – March 26, 2020**

15. People at High Risk:

- **People at risk for serious illness from COVID-19 are older adults and those with a chronic illness such as heart disease, diabetes, or lung disease. These people should take simple precautions at all times to limit their exposure to others who may be ill:**
- **Avoid social gatherings.**
- **Keep more space (6 feet if possible) between you and others as you go through the day.**
- **Avoid crowds. When you do go out in public, keep away from others who are sick and limit close contact.**
- **Wash your hands often, especially after being in public places.**
